(800) 521-4518
Web Site: www.mathtutor.com

Download and Installation Instructions - Page 1 of 2

Please follow the instructions below to download the following programs in the MathTutor series:

Special Topics Series

- Learning Business Math
- Advanced Business Math

NOTE: See Page 2 for the program installation passwords

Please follow these instructions to download our software, and to view or print each program's user manual.

The versions you will be downloading are the single user versions, also called the "Deluxe" versions.

The description below explains the download process for Learning Business Math in the "Special Topics Series". The other program can be downloaded in a similar manner.

Step 1 - Visit the download page of our Web site:

http://www.mathtutor.com/download.html

Step 2 - Scroll down to the section titled "Downloads - Deluxe Versions". In the box with the heading "Special Topics Series" click the "Program" link to the right of "Learning Business Math".

Step 3 - A dialog box will appear. You should click the "Save" button. Another dialog box will ask where you would like to save the file. You should save it to "C:\", the Desktop, or another location on your PC.

Step 4 - Disconnect from the Internet. (But if you have a permanent Internet connection such as DSL or cable, ignore this step.)

Download and Installation Instructions - Page 2 of 2

Step 5 - Double click the program you downloaded. The installation process will begin, and you will need to supply a password. Here are the installation passwords for the two programs:

LEARN. BUS. MATH (SPECIAL TOPICS)	**PASSWORD: 42347**
BUSINESS MATH II (SPECIAL TOPICS)	**PASSWORD: 46893**

The user manuals for the above programs can be viewed in your Internet browser window, and printed if you wish. To view the manuals, visit the download page given above. In the "Deluxe Versions" column, just click the "User Manual" link to the right of the program name.

Starting a MathTutor Program

Step 1 - Click the "Start" button on the Windows taskbar. The Start menu opens.

Step 2 - Choose "Programs". The Programs folder opens.

Step 3 - Choose "Intelligent Tutor".

Step 4 - Click the program you wish to run. The program title screen will appear. Click the title screen to continue.

Step 5 - The "Student Login" screen will appear. To keep records for this session, select a name and click "Login". If you prefer not to keep records for this session, click "Skip Login".

Step 6 - Use the main menu to select the lesson you would like to study.
